Our made to design asper tiles are in matt finish in the corridor. The position of the carpet and continuity of design motif is accurate - changing the finish as we move from guest room to guest toilets.

The motifs on our asper tiles are evenly spaced at the site and not exactly as per the concept render images. Tile floor is planned spatially so as to ensure a uniform grid of 2x2 is applied in each guest room.

The orchre bedroom and bath wallpaper is translated to tiles, hence there is a slight variation between the actual photographs and render images.
