Influenced by the modernist vision and lush planning of Chandigarh, this collection balances geometry with nature through rich, earthy greens. Inspired by Le Corbusier's raw concrete structures, the rhythmic grid of sector layouts, and the sculptural boldness of exposed stone and brick, it celebrates the harmony of design and environment. Echoing the city's deep-rooted appreciation for art, open spaces, and functional beauty, this set is a tribute to modern India's architectural intellect where form meets foliage in quiet sophistication."
