Avant Garde tessellations with a brass lining

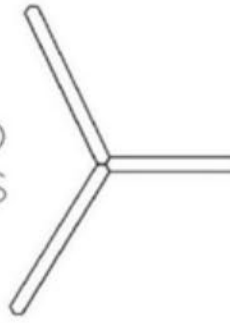

Avant Garde tessellations with a brass lining

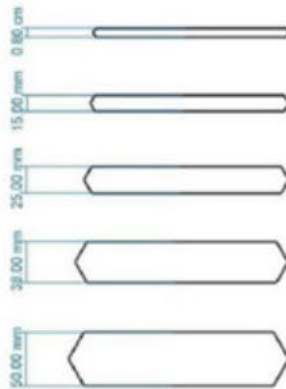

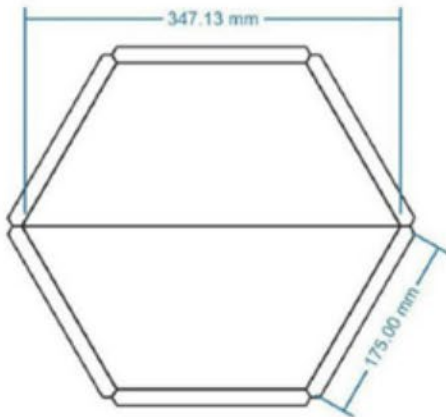

Ceramic tiles with brass coloured borders are fitted together to curate a random floor pattern which comes in different colour combinations with the brass element being constant and being the usp of this product. Ceramic brass replaces brass installations by juxtaposing the look of brass with the feel of ceramics.

TECHNICALITIES AND DIMENSIONS

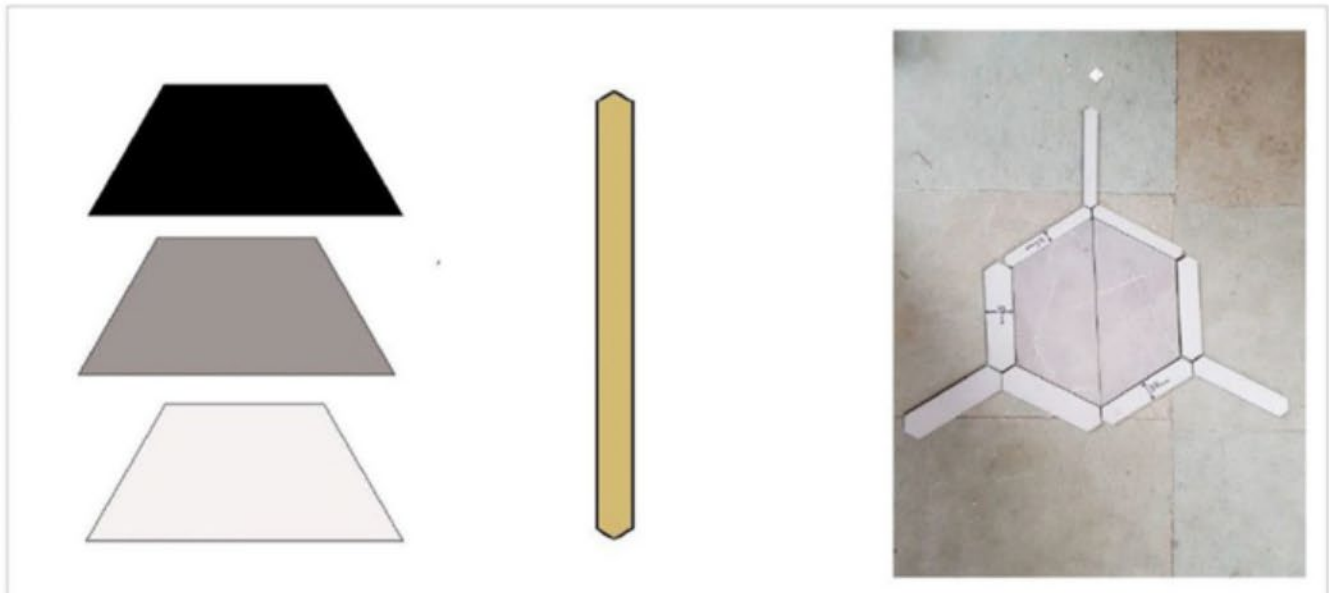

TRAPEZIUM DIMENSIONS

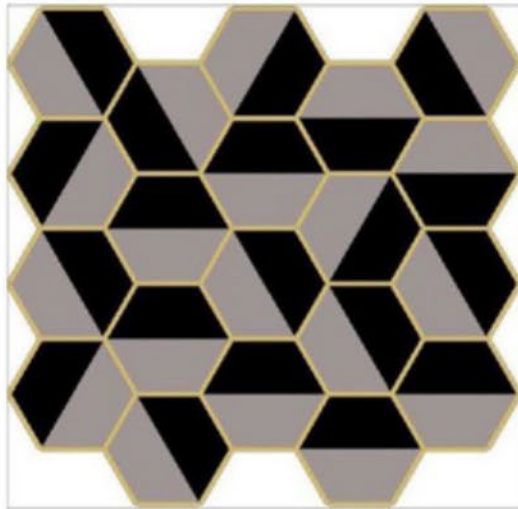

WIDTH VARIATIONS AVAILABLE

Ceramic brass compliments the tile's thickness and finish seamlessly. It is easy to use, quick to install and no extra work to maintain. Because of these special properties, these brass like insert perform better and a perfect emulation of brass.

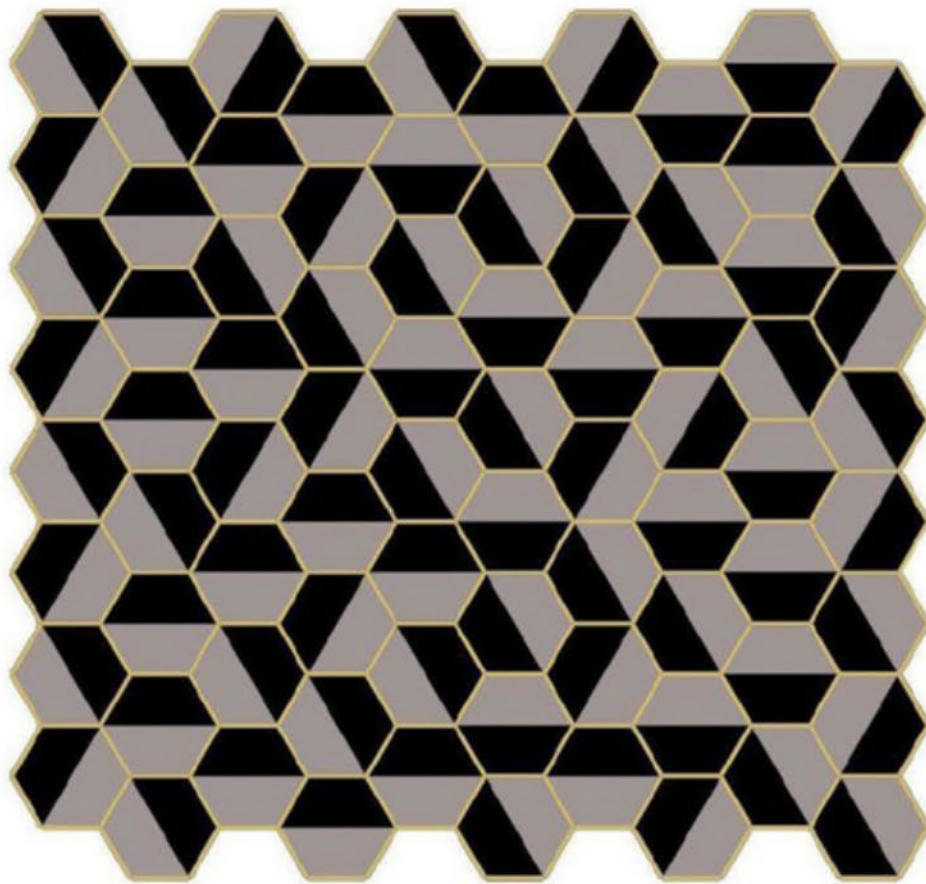

It is easy to overlook the importance of an insert, we see it as vital. Like the frame around a painting in a gallery: Good Brass enhances the setting of the tile without calling attention to itself. It gives you all that BRASS can!
