## Mix · Match · Play

Whether you're designing a room from scratch or want to refresh a favourite nook, mix and match these 4x4 inch tiles. Our tiles are available in sets of 12, so play around with layouts and colour combinations keeping that in mind.

Crafted with eco-friendly pigments and recycled water during the production process, our tiles are made with minimum impact to mama Earth.

They're incredibly versatile and durable as well; from super-bold to more subtle, there's a lot you can achieve with some thoughtful design and should you need help with yours, our design team are happy to make recommendations or help answer any queries you may have.

The box can contain a mix of all / selective / same design element.

"We're always endeavouring to bring the most inspiring designs to your walls and floors, and this latest collection is an exciting step towards exactly that. The Nicobar for FCML collection heroes a tropical state of mind.

As a brand, we have always held the belief that collaboration is the spirit that pushes the boundaries of design. Ten years ago we began working with Indian brands to create interiors made for India and by India. With its modern Indian aesthetic, Nicobar's designs offer a fresh perspective on contemporary interiors and FCML is proud to bring this collection to our customers as yet another innovation with a global heart and native roots."

- Abhinav Khandelwal, Managing Director, FCML

"Since 2011 we've collaborated with India's most renowned designers to bring their visual aesthetic to our customer's spaces and surfaces. With Nicobar for FCML, we are exploring sharp colours and intricate graphics, all underscored by a tropical theme.

We have also paid special attention to sustainability and utility in this collection with the use of eco-friendly pigments and recycled water. The finish is designed for easy cleaning and maintenance ensuring that the product not only delivers on style but also durability."

- Poonam Gupta, Director, FCML Surfaces
